AP 120 METAL PREP

USE AP 120 FOR ALL POR-15 2-COMPONENT COATINGS

PRODUCT DESCRIPTION

AP120 is a water-based metal prep product specifically designed for the following POR-15 coatings: **Glisten PC, WhiteCote, and all Hardnose paints**. **AP120** should always be used when painting directly onto aluminum and other reactive metals such as brass and copper. when used properly according to directions, it will insure a perfect bond every time. **AP120** is not flammable and has no flashpoint, but protective gloves and goggles should be worn when using it.

DIRECTIONS

Spray or brush **AP120** onto metal to be painted and keep wet for two minutes, then wash off with water, dry surface thoroughly, and paint. Leaving **AP 120** on aluminum for more than two (2) minutes may result in a slight darkening of the aluminum surface. Keep the **AP120** bottle tightly closed when not in use. **WARNING: KEEP OUT OF THE REACH OF CHILDREN. MAY CAUSE EYE OR SKIN OR RESPIRATORY TRACT IRRITATION. CONTAINS MATERIAL WHICH MAY CAUSE KIDNEY DAMAGE BASED ON ANIMAL DATA.**
