

TRIM CARE Plastic & Trim Restorer

Description :

This treatment is a regenerator for dull plastic and faded trim formulated with UV shield for optimal protections against fading of treated surfaces. Its unique formula penetrates instantly and restores shine to plastic, rubber, vinyl trims or mouldings to its original finish. Can be used outdoors or indoors, on any plastic moulding, coloured or not.

Advantages :

- Easy and quick to use.
- Can be applied to the exterior and interior of the vehicle.
- Trim Care restores moldings, plastic trim, vinyls or rubbers.
- Durability of 5 to 6 months.

Instructions :

Apply a small quantity to a terry cloth foam applicator pad. Work on surface to be treated using moderate pressure with a back and forth motion. Use a clean terry cloth or microfiber towel and buff off the remaining residue. If needed apply a second coat of TRIM CARE to area and let dry. Re-apply as needed to get a darker appearance.
